PROFESSIONAL SUMMARY

Backend Engineer & QA Specialist with a strong foundation in Java and Spring Boot built during intensive enterprise training at JSpiders. Currently working as a QA Engineer at K-Infotech focusing on content and structural validation, while maintaining a sharp focus on building clean backend applications.

WORK EXPERIENCE

Associate QA Engineer K-Infotech, Tenkasi
Jan 2026 – Present

- Execute end-to-end quality assurance validation for digital publications, ensuring cross-platform structural accuracy.
- Audit metadata schema and XML tagging architectures to strictly enforce publishing industry standards.
- Document, track, and report defects using rigorous comparative analysis methods to accelerate resolution cycles.

Java Developer Trainee JSpiders, Bengaluru
April 2025 – Nov 2025

- Architected and tested enterprise-style sample web applications using Spring Boot, Hibernate, and MySQL.
- Engineered robust backend applications and handled end-to-end CRUD operations, leveraging Postman for automated API testing.
- Deepened core engineering skill sets across Core Java multithreading, JDBC connectivity, and relational query optimization.

TECHNICAL SKILLS

Programming Languages: Java, SQL, HTML, CSS
Frameworks & Libraries: Spring Boot, Spring MVC, Spring Data JPA, Spring Security
Databases: MySQL, PostgreSQL, Oracle SQL Plus
Tools & Technologies: Git, Postman, Eclipse, VS Code, Apache Tomcat, Google Colab

KEY PROJECTS

Flight Reservation System · Java, Spring Boot, MySQL, JPA

- Developed a scalable, end-to-end flight booking backend platform incorporating passenger management and transaction flows.
- Implemented strict operational logic constraints for seat availability validation, data persistence, and capacity checks.

Brain Tumor Detection Using Deep Learning · Python, Deep Learning, Web Integrations

- Engineered a predictive convolutional model trained to accurately classify brain tumor types from complex MRI scans.
- Seamlessly integrated a machine learning pipeline into a web-based presentation layer for real-world application workflows.

EDUCATION

Bachelor of Engineering in Information Science and Engineering AMC Engineering College, Bengaluru
Graduated: July 2025 **CGPA: 8.19**

12th Standard / 2nd PUC (Science) National PU College
Completed: May 2021 **Score: 82%**

SSLC (10th Standard) Dr. Gopinath Rao Memorial High School
Completed: April 2019 **Score: 80.64%**

CERTIFICATIONS & LANGUAGES

- Certifications:** Core Java Certificate (Take It Smart) · Front-End Development Course Certificate (Varcons Technologies)
- Languages:** English, Tamil, Hindi, Kannada, Urdu
